

# Trips

This is the first screen you will see after you have logged in and it contains a list of the trips that you can participate in or observe. The screen has icons on the top which can be used for the following:

-  Plan a new trip in the [Trip Planning](#) screen
-  Start a [Quick Trip](#) without creating a plan
-  Refresh the screen
-  Get help for the screen

In the next line there are four tabs which show trip cards for different types of trips

**My Trips** shows the trips for which the user is a participant or an observer. This is the default tab

**Open Trips** are trips which have been declared as Open by the owner and anybody can join in

**Public Trips** are trips which have been declared public by the owner and anybody can observe

Search tab enables the user to search for trips, the search can be done in two ways:

1. Enter the trip name or part of it and press Search, it returns all the trips which start with that name
2. Enter a location (New Delhi, India) and it returns all the trips where there is a waypoint within 10 km of the specified location. Note in order to be identified as a location the text must have a ',' in it

Below this you will see the Trip Cards. The cards are basic information for each trip and contain the name, creators name, status, user's status and action buttons. The action buttons will change based on the trip status and user status:

**Accept** : The Accept button is for Participants who can accept the trip invite from the Trips screen itself. Once accepted this button will change to Start

**Start** : Once trip is accepted the Start button will show for Participants. This button will start the trip, track your location and take you to the [Tracking](#) screen

**Observe** : The Observe button is shown to people who are not participants, but have been designated as observers. This button will take you to the [View](#) screen

**Continue**: The Continue button is shown when you have exited the [Tracking](#) screen without stopping the trip, it takes you to the Tracking screen and will restart the trip in case the phone has stopped tracking.

**Rejoin** : The Rejoin button is shown when you have stopped the trip, it will start tracking for that trip and take you to the [Tracking](#) screen just like the Start button

**Decline** : The Decline button is shown when the user is an observer this will decline the trip for the user. Once declined the trip will stop showing in your Trip screen, if you wish to observe you'll need to ask the person who invited you to invite you again

**Edit** : The Edit button takes you to the [Trip Planning](#) screen where you can make changes to the trip. This button is available only if you are an Owner

**View** : The View button takes you to the [View](#) screen where you can view the trip and add Personal Observers if you are a participant

**Feedback:** When a trip is marked as Completed in the [Trip Planning](#) screen

Please check the [Power Settings](#) document to ensure you get an uninterrupted experience while on a trip

At the bottom of the screen there are two icons:

The notifications icon takes you to the [Notifications](#) screen to view notifications sent to you

The profile icon takes you to the [Profiles](#) screen where you can maintain your contact, motorcycle, medical, insurance and other details
